FOOD

The plants on your rangeland creeks give food and shelter to wildlife

GOOD

Now go to WATER

FOOD

A coyote killed and ate one of your herd's young animals.

POOR

Now go to WILDLIFE

FOOD

The grazing your herd did last year helped this year's grasses grow. There is plenty of food for the herd to eat.

GOOD

Now go to LIVESTOCK

FOOD

There is an area of bare soil with not enough food for the herd to eat.

POOR

Now go to SOIL

FOOD

Your herd helped graze lands at a nearby park. The animals ate plants to help keep fire danger down.

GOOD

Now stay at FOOD

FOOD

Another herd of animals ate the grass before your herd did. Now you have to buy extra feed for your herd.

POOR

Now go to LIVESTOCK
