**Alion® Herbicide**

**EPA Reg. No. 264-1106**

**For Use On: Grapes**

*This supplemental label expires October 19, 2015 and must not be used or distributed after this date.*

**Supplemental Label**

## **KEEP OUT OF REACH OF CHILDREN CAUTION**

### **Directions for Use**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulation. Read this label and the product package label before using this product. This Supplemental Label must be in the possession of the user at the time of pesticide application. Follow all applicable directions, restrictions, Worker Protection Standard requirements, and precautions on the product label for Alion Herbicide attached to the container.

### **USE DIRECTIONS FOR SPECIFIC CROPS**

#### **RESTRICTIONS FOR USE**

- Alion Herbicide can only be applied in grapes that have been established for a minimum of five years after transplanting and exhibiting normal growth and good vigor.

#### **APPLICATION DIRECTIONS FOR USE IN GRAPE VINEYARDS**

Only use Alion Herbicide in established vineyards at least five years after the vines have been planted and exhibiting normal growth and good vigor. Ensure that the grapes have been planted at least 12 inches deep or that there is 12 inches of soil barrier (berm) between the soil surface and the major portion of the root system prior to using Alion Herbicide or injury may occur.

#### **Dose Rate Chart for Grape Vineyards**

Soil Texture	Alion Herbicide (fl oz product / broadcast acre)	Minimum Vine Age
Sand	Do Not Use	
Any other soil except those that contain 20% or greater gravel content	5.0 fl oz/A (0.065 lb ai/A)	5 years

**Do not apply** more than a total of 5.0 fl oz product/A (0.065 lb ai/A) per year or in a 12 month period when used in grape vineyards.

**Do not use** in grapes grown in Florida or Georgia.

**Do not use** in grapes grown on sand.

**Do not use** on soils with 20% or more gravel content.

**Only use** in vineyards where the grapes have been planted at least 12 inches deep or where there is 12 inches of soil barrier (berm) between the soil surface and the major portion of the root system.

**Do not apply** within 25 feet of ponds, lakes, rivers, streams, wetlands, and habitat containing aquatic and semi-aquatic plants.

## ROTATIONAL CROP RESTRICTIONS

Alion Herbicide is intended for use in perennial tree and vine crops listed in this label and for non-crop farmstead uses. Do not rotate to any crops not listed on this label within 24 months after the last application. Planting earlier than this may result in crop injury or death. If a crop is not on this label, a bioassay should be conducted prior to planting if Alion Herbicide has been used in the previous 36 months. A successful field bioassay means growing a test strip or several plots of the intended crop from seed or transplant to maturity without any observed herbicide symptoms. The test should be conducted in representative areas across the field that includes knolls, low areas, field edges, and changes in soil texture. The rotational crop interval must be extended if the field bioassay does not result in acceptable crop tolerance.

Labeled citrus crops may be transplanted into soil previously treated with Alion Herbicide 1 month or more after the last application provided potted trees (such as citripots) are used.

New orchards of labeled pome and stone fruit, tree nut, pistachio and olive may be established in a location previously treated with Alion Herbicide 1 year after application. Grape vineyards may be established in a location previously treated with Alion Herbicide 2 years after application. In labeled pome and stone fruit, tree nuts, grapes, pistachio, and olive previously treated soil must be thoroughly mixed to a depth of at least 6 inches prior to planting. This may be done through any combination of tillage operations such as ripping, disking, or plowing

*This supplemental label expires October 19, 2015 and must not be used or distributed after this date.*
