

The Sierra Foothill Research & Extension Center presents a forum on

The Ecology and Management of

# Medusahead & Barb Goatgrass

on California Rangeland

9:00 am to 4:00 pm (Sign in at 8:30 am)

**November 5, 2013**

**Pre-register** online through the SFREC website:  
<http://ucanr.edu/sites/sfrec/>

A state-wide forum to bring together university researchers, producers, land managers and conservation professionals to synthesize current research knowledge and management experiences on medusahead and barb goatgrass.

**Come learn about and discuss:**

- ◆ How these species establish and spread
- ◆ How to optimally apply herbicide, grazing and fire to control these invasive species
- ◆ Land manager and rancher experience controlling medusahead and barb goatgrass at a ranch scale
- ◆ NRCS programs and resources to fight rangeland weeds

8279 Scott Forbes Road, Browns Valley, CA - (530) 639-8800
