AREA WIDE MANAGEMENT OF MEALYBUG SPREAD OF GRAPEVINE LEAFROLL DISEASE

WHEN: October 19, 2017

WHERE: Monterey County Agricultural Center
1432 Abbott Street, Salinas, CA, 93901

TIME: Thursday, 1:30 – 5:00 pm

Save the date for an important meeting and discussion on managing the spread of grapevine leafroll virus. Speakers will include Kent Daane, Entomology Specialist, UC Berkeley; and Neil McRoberts, Professor of Plant Pathology, UC Davis. This meeting will also discuss the development for an area wide plan to manage this disease in Monterey County. All vineyard owners and managers should plan on attending. A final agenda will be sent out next week.

About the UC Cooperative Extension

The University of California Cooperative Extension offices are local problem-solving centers. Campus-based specialists and county-based farm, home and youth advisors work as teams to bring the University's research-based information to Californians. UCCE is a full partnership of federal, state, county, and private resources linked in applied research and educational outreach. UCCE develops and extends timely and pertinent information in a manner, which is independent, unbiased, noncommercial, and research based. These fundamental criteria set it apart from all other information resources.
