Agricultural Crop Report Yolo County 2011

2012 National Ag Week Art Contest Winner Claire Deamer, 6th Grade 2nd Place Winner, Korematsu Elementary

Yolo County

Department of Agriculture and Weights & Measures

"We exist to satisfy the needs of our clients not just to produce an output." (Unknown Author)

Yolo County Mission

Leaders in vibrant, safe and healthy communities. We:

- champion job creation and economic opportunities
- preserve and support agriculture
- protect open space and the environment
- enhance and sustain the safety net
- provide fiscally sound, dynamic and responsive services
- collaborate to maximize success
- capitalize on our unique assets
- advance innovation

Department Vision, Mission and Values

Vision

Our vision is to serve agriculture, the business community and the residents of Yolo County, through collaboration and partnership using the most efficient, effective and progressive means available, doing our part to ensure Yolo County has preserved agriculture and is a safe, healthy, and enjoyable environment in which to work, play and live.

Mission

Our mission is to promote and protect Yolo County agriculture and the environment, ensure the health and safety of our residents, and foster confidence and equity in the marketplace through the fair and equitable enforcement of the laws, regulations, and ordinances enacted by the people of the State of California and the County of Yolo.

Values

Employees of the Department of Agriculture and Weights & Measures, in an effort to accomplish the Department's Vision and Mission, share these values in the course of our work and our employment with Yolo County:

Honesty Integrity Trust Enthusiasm Courtesy Customer Service Initiative Good Stewardship of Scarce Public Resources Continuous Improvement Personal and Professional Growth Respect and Tolerance of the Rights and Beliefs of Others

John Young AGRICULTURAL COMMISSIONER SEALER OF WEIGHTS AND MEASURES

September, 2012

Karen Ross, Secretary, California Department of Food and Agriculture and Honorable Board of Supervisors, County of Yolo

Pursuant to the provisions of Sections 2279 and 2272 of the California Food and Agriculture Code, I am pleased to present the Yolo County Crop Report for 2011. This annual publication summarizes the acreage, production and valuation of Yolo County's agricultural commodities. These figures denote gross value of production and do not attempt to reflect net farm income.

The gross value of Yolo County's agricultural production for 2011 was \$549,249,669, an all time high, and an increase of 23.8% from 2010. This increase reflects overall higher price per unit for commodities and increases in acreage.

Processing tomatoes remain Yolo County's leading commodity with a gross value of \$106,792,881, up from \$87,920,291 in 2010. This is due to a slightly increased price per unit, but mainly to a 21.7% increase in acreage in 2011 as the county rebounded from decreased acreage in 2010.

Rice, wine grapes, hay, and walnuts round out the top five, with the only change from 2010 the switch of walnuts to number five in gross value and organic production to number six. These changes reflect an increase in bearing acreage for walnut orchards, as well as a 28.7% price increase per unit from the previous year. Almonds, field corn, wheat and sunflower seed round out the top ten commodities for 2011.

I would like to express my appreciation to all the farmers, ranchers, and agencies who contributed data making this report possible. Special recognition for the compilation of this report goes to Jenni King, Leslie Churchill, Beth Gabor, Dennis Chambers and all the staff that assisted in gathering the information.

To see this or any previous crop reports online, or to learn about the programs and services provided by the Yolo County Department of Agriculture, visit: www.yolocounty.org (go to: Government > Departments > Agriculture and Weights & Measures).

Respectfully submitted, John Young

John A.

Agricultural Commissioner

3 Includes eggs, milk and wool.

Yolo County Community Supported Agriculture

Community Supported Agriculture (CSA) consists of members or "shareholders" of a farm or garden who cover the anticipated costs of the farm operation and farmer's salary. The consumer joins a CSA program and purchases, in advance, a share of the farm's crop, and in exchange is provided a part of the crop each week, delivered to a predetermined spot, usually near the customer's home or worksite.

Farm Fresh to You

Founded in 1976 by pioneer organic farmer, Kathleen Barsotti, the farm, Capay Fruits & Vegetables, is now owned and managed by her four sons. They grow a wide variety of organic fruits, vegetables and flowers and serve over 4,000 CSA members.

> 23808 State Highway 16, Capay, CA 95607 (800) 796-6009 www.farmfreshtoyou.com

Full Belly Farm

Full Belly is a 200-acre, highly diversified organic farm in the Capay Valley, founded in 1985 by Paul Muller and Dru Rivers. Today, there are two more partners, Judith Redmond and Andrew Brait.

> P.O. Box 251, Guinda, CA 95637 (530) 796-2214 www.fullbellyfarm.com

Good Humus Produce

Owners Jeff & Annie Main settled in the Capay Valley in the 1970s, and over the years created a small, diversified, organic family farm.

> 12255 Road 84A, Capay, CA 95607 (530) 787-3187 www.goodhumus.com

Live Oak Farm

Live Oak Farm is a small organic farm located in the Capay Valley. They grow a variety of vegetables, fruits, nuts, olives for olive oil, and flowers.

> P.O. Box 73, Rumsey, CA 95679 3880 Hwy 16, Rumsey, CA (530) 796-4084

Organic Farming

Number of Registered Farms: 80 farms registered organic 23 farms certified organic by Yolo Certified Organic Agriculture (YCOA)

Yolo County Certified Farmers Markets

The certified farmers market concept is an effort to re-establish the traditional link between farmers and consumers. Certified farmers markets are locations approved by the agricultural commissioner where certified farmers offer for sale only those agricultural products they grow themselves.

Davis Farmers Market

Central Park 4th & C Street, Davis www.davisfarmersmarket.org

March—October: Wednesdays 4:30 p.m. to 8:30 p.m. Saturdays 8:00 a.m. to 1:00 p.m. November—February: Wednesdays 2:00 p.m. to 6:00 p.m. Saturdays 8:00 a.m. to 1:00 p.m.

UC Davis Farmers Market

Silo Patio University of California, Davis

March-November: Wednesdays 9:30 a.m. to 2:30 p.m.

Sutter Davis Hospital

Farmers Market

2000 Sutter Davis Place, Davis

May-August: Thursdays 10:00 a.m. to 2:00 p.m.

West Sacramento Farmers Market

1271 West Capitol Avenue, West Sacramento

May-September: Thursdays 4:30 p.m. to 8:00 p.m.

Woodland Certified Farmers Market

Freeman Park Main Street between 4th and 6th Streets, Woodland

May-October: Saturdays 9:00 a.m. to 12:00 p.m.

Woodland Certified Farmers Market Woodland Healthcare Campus

1325 Cottonwood Street, Woodland

May-October: Tuesdays 4:30 p.m. to 7:00 p.m.

Farm to School Yolo

Farm to School Yolo is a public health and agricultural marketing initiative, mandated by the Yolo County General Plan 2030 and under the direction of the Yolo County Department of Agriculture. The goal is to improve health and link Yolo agriculture with the National School Lunch Program offered in Yolo County to five public school districts, the Yolo County Office of Education

schools and Head Start/Early Start programs. In 2011-12, these schools enrolled 28,282 students; 54% were eligible for free and reduced meals; and 65% of the schools served populations of 50% or more eligibility. For more information, visit: www.harvesthubyolo.org or call the Yolo County Department of Agriculture (530) 666-8140 or the food service directors listed to the left.

Denise Sagara Executive Director Yolo County Farm Bureau

Denise is a long time Yolo County resident. Born in Emmett Idaho, Denise and her parents moved to Yolo County in 1960, when her father became farm manager of Deseret Farms. Denise graduated from

Esparto High School in the early 1970s, and married life-long Yolo County resident Steve Sagara, of Sagara Farms. Denise's family includes daughter Darci, son Jon and daughter-in-law Kelly. She and Steve also have two grandchildren, Trent and Troy.

Denise started out doing the book keeping for Sagara Farms, and was hired on to the Yolo County Farm Bureau as Executive Director in 1998. For the past 13 years, Denise has been behind the scenes, keeping things running smoothly. In 2004, Denise was instrumental in organizing the Yolo County Irrigated Lands Program. The Yolo County Irrigated Lands Program was formed in response to the Central Valley Regional Water Quality Control Board's decision to require individual farming operations to have a waste water discharge permit. By banding together with the Yolo County Agriculture Department and the Sacramento Valley Water Quality Coalition (part of the Northern California Water Association), Denise has been very successful in getting nearly 97% of the growers in Yolo County to participate in the Irrigated Lands Program. The Yolo County Irrigated Lands Program is one of the strongest in the state.

Denise has also worked hard to increase agricultural awareness in Yolo County. For instance, what started out as a couple of schools participating in the National Ag Week Art Contest, has now expanded to participation by almost every elementary school in the county. In addition to numerous other National Ag Week activities, Denise has been actively involved in expanding the Yolo County 4-H Spring Show, increasing the size and scope. The first day of the Spring Show now includes Farm Connection Day, in which the Yolo County Farm Bureau has become a partner. This year, over 2,000 students from Yolo County schools participated in the event. Farm Connection Day is an opportunity for school children throughout Yolo County to learn about agriculture through hands-on interactions with local agricultural entities. These learning activities include creative arts and science projects, such as sewing and engineering activities.

In 2008, Denise helped initiate the Spray Safe program in Yolo County. The Spray Safe program was created to reduce spray drift, enhance worker safety and protect public health through more effective communication. The program encourages farmers to communicate with each other and to be vigilant to help reduce incidents of spray drift. Continuing education is provided on new and improved practices, technologies and precautions to improve farm safety. Spray Safe is now an annual event

that has increased in size and scope from the beginning. The latest event (February 2012) hosted some 400 growers, workers, pesticide handlers, Pest Control Advisors and Pest Control Businesses, discussing and learning safe spray practices and methods.

Over the last 13 years, Denise has worked tirelessly to help promote agricultural awareness in Yolo County and to help protect and improve the ability of farmers and ranchers engaged in production agriculture to continue their farming practices in Yolo County.

Your efforts are sincerely appreciated. Thank you Denise!
