

 SPECIALTY CROPS & VITICULTURE EVENT

# UCCE ORGANIC CROPS DAY

APRIL 26TH, 8:30-12:30 PM

Join us to learn essential knowledge and practices for organic crop production in the north coast. Presentations will be given by experts from University of California and partner organizations.

### Topics Include:

- Soil Health Management
- Organic Nitrogen Management
- Organic IPM for Insect Pests in Vineyards, Orchards, & Vegetables
- Organic IPM for Diseases & Weeds
- Free Technical Assistance to Eligible Small Farms in SGMA Regulated Basins
- Organic Production Economics
- Grower Panel Discussion

Live Spanish Interpretation services will be available. Please select this option in the registration survey if interested.

CEUs for DPR, CCA, & INMP requested.
