

California State Ag Hackathon

July 15 -17th 2016, Davis and Sacramento

Join us for this unique event catalyzing an uncommon collaboration between software engineers, growers, academics, and students for the purpose of solving immediate Ag Industry challenges using technology. Be a part of fostering leading edge ag tech solutions that will be showcased at the State Fair on July 17th in front of prominent entrepreneurs, investors, researchers, growers and State Fair attendees, potentially garnering wide media coverage.

Help us attract the most talented and diverse group of software engineers and students from Silicon Valley, the brightest students, the most prominent growers and leading academics across California to dream up big solutions using Ag Tech. Your sponsorship will allow us to offer cash prizes that are critical to attract and reward the most qualified participants, to host the event, and to create a "Seed Fund" to help support the breakthrough work of the top three teams going forward.

Sponsorship Levels

Founder: \$10,000 and up
