UC streamlines retirement investment fund menu July 2

New video explains what to do when you’re

VP message to the ANR community

Last year we celebrated the Centennial of Cooperative Extension, created by the Smith-Lever Act of 1914. It’s been 148 years since the founding of the University of California and 129 years since creation of the Agricultural Experiment Station, which resulted from passage of the Hatch Act in 1887.

As I reflected on these events, and on my career, I thought it would be a good time to briefly outline the history of the Division of Agriculture and Natural Resources, how it was created and how it fits into the larger University of California.

**UC billboards in San Joaquin Valley**

If you drive through the San Joaquin Valley, you may see Dan Munk, ANR Cooperative Extension advisor in Fresno County, featured with an irrigation system on UC ANR billboards. The sign reads: "Tapping Cooperative Extension to make every drop count - that's the power of public. #powerofpublic"

ANR Report is testing this email format, which performs better on different types of mobile devices.
