WATER-EFFICIENT LANDSCAPE PLANT LIST

FAIR OAKS
HORTICULTURE
CENTER

The Fair Oaks Horticulture Center is an instructional facility designed to educate home gardeners and landscape professionals in the planting and care of ornamental and edible plants. UC Master Gardeners maintain demonstration plantings of fruit trees, table grapes, berries, vegetables, and the water efficient landscape demonstration garden.

The Water-Efficient Landscape (WEL) demonstrates that a beautiful garden can thrive on low amounts of supplemental summer water. This demonstration area is composed of six gardens designed to offer a variety of landscaping options. The gardens are: 1) Front Perimeter garden, 2) Mediterranean garden, 3) Perennial Walk, 4) Common Variety garden, 5) Native Plant garden, and 6) Ultra WEL. Strategically placed signs clearly show their locations on site.

In addition to water wise plant selection, this demonstration garden incorporates various water efficient landscaping techniques. These include the use of compost to improve soil structure, drip irrigation, and mulch to reduce soil moisture loss and weed growth. The gardens demonstrate that it is possible to conserve water and have an attractive landscape at the same time. By using water meters, we have found that our WEL gardens use about 65 to 75 percent less water than an average lawn of similar size.

- 1. Front Perimeter
- 2. Mediterranean
- 3. Perennial Walk
- 4. Common Variety
- 5. Native Plant
- 6. Ultra WEL

* N: A native is a plant that grew naturally in California prior to European contact.

★: An Arboretum All-Star is a plant identified by the horticultural staff of the UC Davis Arboretum. They have chosen 100 tough, reliable plants that have been tested in the Arboretum, are easy to grow, don't need a lot of water, have few problems with pests or diseases, and have outstanding qualities in the garden. Many of them are California native plants and support native birds and insects. Most All-Star plants can be successfully planted and grown throughout California.
