

4-H

Guide Dog Proficiency Program

A Member's Guide

OVERVIEW

The 4-H Guide Dog Proficiency program helps you learn what you need to know about your 4-H project.

Your project leader will assist you in setting and achieving your goals.

There are many resources to help you learn more about your project:

- The University of California Davis has free resources available online by visiting: <http://anrcatalog.ucdavis.edu/4HYouthDevelopment/>. This site lists a variety of project materials and resources recommended for use in your project.
- The Solano County 4 - H Resources and Lending Library at our county 4-H Office includes other books, videos, and reference materials that can be checked out by members and leaders.

There are four levels in this Project Proficiency Program. You may choose how many levels you wish to complete:

- ◆ Level I – “Explorer”, you begin to learn about many different aspects of raising a guide dog.
- ◆ Level II – “Producer”, you practice and refine the many skills involved in owning and caring for your guide dog.
- ◆ Level III – “Leader”, allows you to show your own leadership potential.
- ◆ Level IV – “Researcher”, you carry out a demonstration or experiment on some aspect of your guide dog project, and prepare a paper or portfolio.

As you work through the proficiency program, your leader will date each skill item as you complete it. When all items in a proficiency level are completed, your leader will sign the Certificate of Achievement.

GUIDE DOG
Level I - Explorer

Date
Completed

- _____ 1. Identify the breeds of dogs that are used by Guide Dogs for the Blind.
- _____ 2. How old is your puppy when it receives its first rabies shot and at what age does it get a license?
