**IPM Website**

Go to: [www.ipm.ucdavis.edu](http://www.ipm.ucdavis.edu) "Solve your pest management problems with UC's best information, personalize it with interactive tools, or find out about pest management research and extension projects". The site has extensive information on How to Manage Pest, Tools to Help Make Decisions, Educational Resources, Research and IPM. Refer school teachers, parents and children to this phenomenal website.

### **Inter-active DVD and Powerpoint Presentations**

UCCE has prepared an interactive DVD or Powerpoint presentation on two topics: IPM for Ants and IPM for Weeds. You will require a DVD player and television to view the DVD. For the Powerpoint Presentation you will need a laptop and projector which are available on loan from the UCCE office in Novato. Allow sufficient time to book the equipment if you wish to do a presentation at a school.

These presentations are interactive covering points for group discussion. It includes Training Activities – Hands on Demonstrations to go along with the Weed Presentation. For example on Mulches, it provides learning objectives, materials required, and “what to do”.

### **To Obtain Pesticards or copies of the DVD/Powerpoint Ant & Weed Presentations**

Contact: Terumi Leinow – 415-488-4580 or email: [Terumi@leinow.com](mailto:Terumi@leinow.com) and I will arrange to obtain copies of the Pesticards for you. Allow a minimum of two weeks for delivery.

We have one DVD/Powerpoint set of the Ant or Weed presentations for loan. If you wish to obtain a personal copy for the school or organization you are affiliated with, Terumi will order a set for you.
