

# Pesticide Application Inspections and Common Violations

Bridget Higgins  
Agricultural Biologist/ Inspector  
Santa Cruz County

# Most Common Violations

- Labeling
  - PPE
  - Decontamination Facilities
  - Pesticide Storage
  - Pesticide Transport
- 

# Labeling

- First always read the label prior to applying any pesticides.
- Check for accurate rate measurement, post application specific requirements such as REI, and PPE for fieldworkers.
- Check if the use of an adjuvant is required.
- Check if the label restricts applications due to weather conditions, ex. inversion layer or wind speed.

**NET CONTENTS  
1 GALLON**

**(INSECTICIDE-MITICIDE)**

**RESTRICTED USE PESTICIDE**  
DUE TO TOXICITY TO FISH AND AQUATIC ORGANISMS  
For retail sale to and use only by Certified Applicators, or  
persons under their direct supervision, and only for those  
uses covered by the Certified Applicator's certification.

**KEEP OUT OF REACH OF CHILDREN  
WARNING - AVISO**

SEE INSIDE FOR ADDITIONAL PRECAUTIONARY STATEMENTS.  
To avoid an allergic reaction to nicotine, breathe a allergen-free gas to replace a water or details.  
If you are not comfortable the label, call someone to explain it to you in detail.

**DANITOL<sup>®</sup>**  
**2.4 EC SPRAY**

# Personal Protective Equipment

- Required by the label and also for mixing and loading of pesticides.
  - Growers are not exempt from wearing PPE listed on the label.
- What if it is provided and the employee refuses to wear it?
  - Do not allow an application to occur without the use of PPE.
  - Disciplinary action policy.

# Decontamination Facilities

- What are the three things you need in a decontamination facility?
- What else do you need if applying Warning/Danger pesticides?
- Are cloth towels ok instead of paper towels?
- How much water is enough?
- Is hand sanitizer the same as soap?
- When do you need eyewash? Where should it be kept? Can you drink your eyewash water?
- How far away can the decontamination be from the pesticide applicator?

# 3 requirements in a decontamination facility

# Pesticide Containers

- Required to be triple rinsed at time of use.
- All containers must be stored in your locked pesticide storage area.
- If you have any warning or danger class pesticides the storage area must be posted with a Danger Sign.
- Remember the sign must be readable at a distance of 25'

# Pesticide Transport

- Pesticides shall not be transported in the same compartment with persons, food or feed.
- Pesticide containers shall be secured to vehicles during transportation in a manner that will prevent spillage onto the vehicle or off the vehicle. Paper, cardboard, and similar containers shall be covered when necessary to protect them from moisture.
