

## In-person 4-H Meetings during COVID-19 *Frequently Asked Questions*

*What if someone arrives and has illness symptoms?*

- All attendees must answer "NO" to all of the questions on the Symptom Survey before they are allowed to enter the meeting area. Anyone who answers "YES" to any of the questions must leave the meeting premises immediately.
- If someone develops symptoms during the meeting, they should be separated from the group and asked to leave the activity.

*What if someone refuses to wear a mask?*

- If someone refuses to wear a mask, remind them this is a statewide public health requirement for the protection of others, as well as a UC ANR program requirement. If they will not comply, ask them to leave until they can comply with this requirement. If this behavior persists, this should be handled like other 4-H policy or code of conduct violation.

*What if someone reports they cannot wear a mask for medical reasons?*

- If a participant (4-H member, volunteer, or parent) tells you that they cannot wear a mask for medical reasons, contact your 4-H staff in the County office to discuss the situation and alternatives. In some cases, other protective equipment, such as a clear plastic face shield may be an appropriate alternative.

*What if parents want to stay and would therefore bump the numbers above capacity?*

- Ask parents to wait in their vehicles or wait in another area separate from the 4-H meeting group.

*What if someone reports that they have been diagnosed with COVID-19?*

- If a volunteer, parent, or 4-H member tells you that they have COVID-19 or believe they were exposed at a 4-H activity, immediately report this information to your local 4-H staff.
- The Attendance Log from the event must be made available to Public Health contact tracing personnel if a participant and/or a member of the participants' household is diagnosed with COVID-19.
