

Virtual Zoom Webinar

Thelma Hansen Symposium **"Trees to the Rescue: Solutions for Climate Change"**

Tuesday-Thursday, May 14-16, 2024, 4:00-5:30 PM

Register for the 2024 Thelma Hansen Symposium!

Join us for a three-day webinar series presented by the Hansen Agricultural Research & Extension Center.

Dates: Tuesday-Thursday, May 14-16, 2024

Location: Zoom Webinar (*links will be sent out as soon as you register*)

Agenda TBA

[Click Here to Register](#)

Who should attend?

Anyone interested in learning about the issues surrounding water in agriculture, including growers, ranchers, crop advisors, policy makers, teachers, students, Master Gardeners, and the general public.

All are encouraged to register. Please share broadly with those who may be interested in attending!

Objectives are to:

- Inform the audience about the complex issues surrounding the availability, quality and economics of water, particularly as it pertains to coastal California agriculture.
- Raise awareness of the challenges of meeting future agricultural water needs.
