

For Parents

Fun and informative study for 4-H kids in San Benito, Santa Cruz, and Monterey Counties!

- This is a research project concentrating on how the continuity of science programming impacts science content knowledge, interest, and skills.
- The project is for 4-6th graders and will run from September 2012 through February 2013.
- The project is free and all materials are provided.
- There are three schedule options listed inside that you may choose from.

For Volunteers

Would you like to help 4-H gain new information on effective science programming for youth?

- Volunteers will be required to attend 3 free training workshops.
- You will receive free curriculum and materials related to the project.
- You will be required to facilitate meetings with a group of project youth.
- You will be required to select the dates and locations of meetings along with other volunteers.
- And at the end of the project you will receive a gift card for your hard work!
