Spring Garden Workshop Series

Saturday, Mar 29 10-11am The Scoop on Soil

Give your garden a jump start with rich soil. Find out about the composition of the soil in your yard and how to enrich it so your plants can thrive. Happy soil = happy plants.

Saturday, Apr 5 10-11am Colorful Sustainable Landscapes

Our own California native plants know how to survive and thrive in our soil and low rain conditions. Learn how to use these beautiful plants in your home landscape. Yes, you can have year round color with natives, and added bonus: no lawn to mow!.

Saturday, Apr 12 10-11am Creative Containers

Create prolific and easy to maintain gardens in wine barrels, wooden pallets, even old shoes!

Saturday, May 3 10-11am Eat Your Patio!

Small yards and patios can produce an abundance of edibles. From hanging strawberry baskets to vertical salad stacks, small space edible gardening is easy, attractive and fun!
