

## Horse Day:

### *A Hands-On Approach to Equine Topics*

Join us for the annual UC Davis Horse Day! Held at our Animal Science Horse Barn facility on Saturday, October 22nd, it will be a day filled with hands-on workshops dedicated to continuing education for the horse owner and enthusiast. This day gives you the chance to interact with the animals, talk to the experts and be more involved with the materials.

A special presentation by Dr. Robert Miller will occur at lunchtime and at the end of the day make sure not to miss the *Knights of Mayhem* jousting show!

Whether your interests lie with reproduction, nutrition or emergency aid, there is sure to be something to attract you to Horse Day!
