**About California Small Farm Conference** Founded in 1982 by the Small Farm Center at the University of California, Davis, the California Small Farm Conference (<http://www.californiafarmconference.com/>) is the state's premier gathering for not only small farmers, but farmers' market managers, agricultural students, researchers, writers and food advocates to come together to network, learn, discuss and grow. The Conference is a unique opportunity for smaller-acreage producers to gain insight from technical experts, network with other farmers and ranchers, and learn sustainable farming practices, business aspects, and more.
