

Written Recommendations & their impact on Water Quality

Will R Harrison

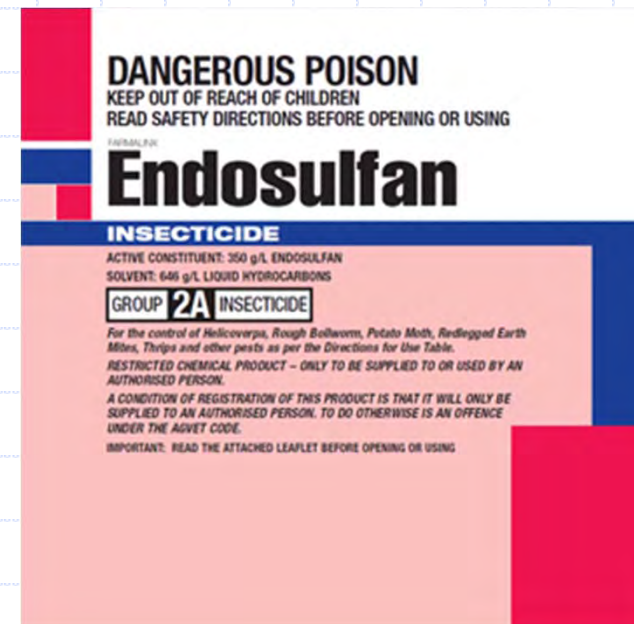

Target Specialty Products

Thiodan[®]

Restrictions are nothing new

- ◆ Thiodan
- ◆ Ground water protection
- ◆ Diazinon
- ◆ Chlorpyrifos

What goes into my written recommendation?

◆ Site evaluation

- Know what you are dealing with
- Know what is happening around you

◆ Application equipment

- How will the job get done

◆ Treatment action

- Chemical treatment
- No action?

Site Evaluation

- ◆ What is the problem
- ◆ Expectations
- ◆ Secondary flair up
- ◆ E.S.A.
- ◆ Situational awareness
 - Drainage
 - Sensitive site
 - Soil permeability

Application Equipment

DGA2307254

Treatment Recommendations

- ◆ No Action
- ◆ Cultural changes
 - Irrigation/ fertility / pruning
- ◆ Chemical control
 - Are there TMDL's in the area
 - Selectivity of the material
 - Target specific
 - Buffers
 - Cost considerations ?

So why a PCA ?

- ◆ Pest control is what we focus on
- ◆ Experience
- ◆ Trained to look for the unexpected
- ◆ Continually expanding our base of knowledge
