VINEYARD FROST PROTECTION MEETING

With very special guest **Mark Battany**,
UCCE Viticulture Advisor-San Luis Obispo/Santa Barbara Counties

Vineyards in San Luis Obispo County, like much of the foothills, experienced tremendous frost damage last year. Mark Battany is a well respected UC Advisor (and self-admitted “techno” guy) who has conducted unique research on measuring temperature inversion conditions and comparing conventional and upward blowing wind machines for frost control.

Please join us for coffee and pastries while we learn about Mark’s project results.

*There will be a registration fee of \$5 per person.
Please detach and mail with cash or check made payable
to UC REGENTS and return to: UCCE,
Attention: Robin Cleveland
311 Fair Lane, Placerville, CA 95667*
