

Manzanita Berry Farms - 2013 Reduced Sprinkler Trial Ranch 7 - cv. PS1.125

Manzanita Berry Farms - 2013 Reduced Sprinkler Trial Ranch 2 - cv. PS3.108

Observations: Previous years we experienced earlier fruiting in reduced sprinkler fields. Cold, very dry weather this year may have favored later blooming fields. Lack of rain may have favored the early added overhead irrigation plots. STD and 2-Row drip is HIGH-FLOW, 4-Row drip is LOW FLOW
