## Poster Headline Text Here Use Title Case in Lucida Bold

Use the following elements to deliver your poster's message: clarity, brevity, simplicity and humanity.

Do not make the mistake of including more copy than the viewer can easily or quickly read. Remember that a few great images have more impact than many poor ones.

Insert your poster copy here.

Replace the stock art and photos with other RGB or CMYK images, charts or figures of your subject. You can use photos from the Toolkit Web site. At the bottom left, replace the example program name with your department or program title.

At the bottom right, substitute your program logo brand if appropriate. Otherwise remove the placeholder logo included in this template.

*Use a tagline or pull  
quote set in New Times  
Italic for emphasis.*
