5 things to know about federal taxes when starting a farm business

presented by Ruby Ward, Utah State University Extension

When starting a new farm or ranch business it is important to have a basic understanding of a few tax issues. Unexpected taxes can hurt the financial viability of a new farm business. This webinar will go over some basic concepts that will make complying with tax laws and planning for tax payments easier.

Webinar 1

12:30 p.m. EDT
(10:30 a.m. MDT)

Who Blinked? The American Taxpayer Relief Act of 2012

Presented by Guido van der Hoeven, North Carolina State University Extension

There have been many changes in tax laws that affect agriculture. This webinar will give a 45,000 foot view of recent tax law changes affecting agriculture. This is important to be able to manage any farmer or ranchers federal income and self-employment taxes. The changes for the 2013 tax year and beyond will be included.

If you have never attended an Adobe Connect meeting before:
