

GET AHEAD OR GET PARCHED: SIX WAYS TO SURVIVE THE DROUGHT

Learn how to keep your landscape and reduce water use by improving water management and system efficiency. This workshop features indoor presentations and outdoor demonstrations on the following topics:

- TOPICS**
1. Understanding precipitation rates (PR) to reduce runoff
 2. Improving sprinkler distribution uniformity (DU) to reduce water use
 3. Improving controller programs during mandatory water restrictions
 4. Determining application rates and PR of drip/micro irrigation
 5. Understanding soils to reduce runoff or deep percolation
 6. Understanding water meters to improve irrigation efficiency

WHEN Wednesday, April 9, 2014, 8 AM -12 PM

WHERE Maidu Community Center
1550 Maidu Drive
Roseville, CA 95661

COST \$20; includes a CEU certificate (for IA and PLANET CEUs)

Attendees will be provided with useful tools and resources to complement the workshop. Refreshments will be provided courtesy of CLCA. **To register, visit ccuh.ucdavis.edu.**
