Tips to Help You Enjoy the Conference:

1. Bring a note pad if you like to take notes.
2. Check the Smart Gardening tab at <http://ucanr.org/sgc> on February 23 to see if there is a handout for your sessions, which you may print or upload into your digital device. In an effort to save resources, we do not provide handouts. Not all instructors will provide digital handouts for their presentation.
3. Allow time before and after the conference to shop the vendor area for garden-related goods and services and to get specialty advice from gardening clubs and organizations.
