The Succession Planning presentation will provide producers with tools to better plan and communicate decisions to transfer stewardship of properties to the next generation in ways that avoid conflict.

After lunch there will be a facilitated open discussion for ranchers to share their experiences: management practices, issues of concern and work together to find solutions to different challenges. This Peer Advisory group discussion is a great opportunity for ranchers to reflect on how they have been doing things, and hear alternative approaches used by their peers in hopes that this dialogue can spur new innovations or ideas in the future.
