

**Knocking Out
Noxious Weeds
on Rangelands**

2016 Fall
Workshop Series

Central Coast Workshop

November 16, 2016

8:30 a.m. - 4 p.m.

**Agricultural Center Conference Room
UC Cooperative Extension Monterey County
1432 Abbott Street
Salinas, CA 93901**

***Continuing Education Credits for DPR and SRM ***

The direct annual cost to monitor and control invasive plants in California is \$82 million, and the indirect economic impacts are even larger. Join the fight to reduce noxious weeds and get trained at the 2016 Workshop Series!

- Highlights of cost-effective approaches that maximize success;
- Showcase of effective strategies to manage invasive species - plants and wildlife;
- Featuring reduced-risk practices while promoting biodiversity; and
- Discussions of economic losses caused by invasive species on rangelands - forage value and livestock toxicity.

SPEAKERS:

- Roger Baldwin, Human-Wildlife Conflict Resolution Specialist, UC Davis
- Ken Tate, UC Davis Professor and Rangeland Watershed Sciences Cooperative Extension Specialist
- Marcia Booth, Senior Analytical Chemist in the California Animal Health and Food Safety Laboratory System, UC Davis
- Joe DiTomaso, UC Davis Professor and UC Cooperative Extension Specialist
- Devii R. Rao, UC Cooperative Extension Livestock and Natural Resources Advisor
- Royce Larson, UC Cooperative Extension Livestock and Natural Resources Advisor
- Elise Gornish, UC Cooperative Extension Specialist in Restoration Ecology
- And More....
