

Knocking Out Noxious Weeds on Rangelands

2016 Fall
Workshop Series

Central Valley Workshop

November 17, 2016

8:30 a.m. - 3:30 p.m.

Fresno County Ag Commissioners Office
720 S. Maple St.
Fresno, CA 93702

***Continuing Education Credits for DPR and SRM ***

The direct annual cost to monitor and control invasive plants in California is \$82 million, and the indirect economic impacts are even larger. Join the fight to reduce noxious weeds and get trained at the 2016 Workshop Series!

- Highlights of cost-effective approaches that maximize success;
- Showcase of effective strategies to manage invasive species - plants and wildlife;
- Featuring reduced-risk practices while promoting biodiversity; and
- Discussions of economic losses caused by invasive species on rangelands - forage value and livestock toxicity.

SPEAKERS:

- Joe DiTomaso, UC Davis Professor and UC Cooperative Extension Specialist
- Ken Tate, UC Davis Professor and Rangeland Watershed Sciences Cooperative Extension Specialist
- Kurt Hembree, UC Cooperative Extension Weed Management Advisor
- John Madsen, USDA Agricultural Research Service
- Guy Kyser, UC Davis Research Specialist
- Elise Gornish, UC Cooperative Extension Specialist in Restoration Ecology
- Fletch Nelson, Natural Resources Conservation Service
- And More....
