

FOREST STEWARDSHIP WORKSHOP

Fire Resiliency for North Coast Homes and Forests

May 19, 2018

8:30 a.m. -3:30 p.m.

Timber Cove Resort

21780 Hwy. 1, Jenner

Are you prepared for fire?

This workshop is intended to reach several goals.

Firstly, it is to discuss current thinking on fires, its history in California, and what we can and cannot do to manage it, and the implications this has for fire and fuels management on private and regional scales. Next, it is to discuss options in terms of fuels management on a regional scale, and gather feedback from the community about what we all might like to see done. Finally, it is to discuss funding options available to large and small landowners to meet their property management goals.

Firstly, it is to discuss current thinking on fires, its history in California, and what we can and cannot do to manage it, and the implications this has for fire and fuels management on private and regional scales.

PRESENTERS
