

Growing Winter Vegetables

10:30 a.m. to Noon
Tuesday, August 14, 2018
Community Center
1075 West Capitol Avenue
West Sacramento, CA 95691
916-617-5320

We are fortunate to be able to grow vegetables year around in our area. Cole crops, onions, garlic, beets, lettuces and many others thrive in the fall and winter. UCCE Yolo County Master Gardeners Cathy Sutton and Lynn Stanzel will show you hands on how to start, plant, care for and harvest your own cool weather vegetables.
