Association of Professional Landscape Designers

California Chapter

presents

Watershed Wise Landscape Professional Certification Training November 7 & 8 in Sacramento

Build upon your current experience, training, and certifications. In this unique training, you will:

- Learn on-site water management strategies and how to apply watershed-based principles
- Understand soil - water - plant relationships and how to build healthy soils
- Conduct an irrigation water audit and site evaluation
- Calculate irrigation run times and precipitation rates for efficient scheduling to eliminate dry-weather runoff
- Design projects within water budgets using plant factors
- Design and locate rain gardens
- Identify new water efficiency techniques and technologies

Green Garden Group's (G3's) Watershed Wise Landscape Professional (WWLP) training is recognized as a US EPA WaterSense labeled Professional Certification Program.
