

Post-fire Recovery Workshop for Forest and Rural Landowners

Thursday, December 10th, 6:30-9:00 w/ Q&A

Join friends of the Sonoma County Forest Conservation Working Group in a virtual workshop designed to provide forest landowners and other rural landowners with the training and resources they need to heal their land post-fire.

Presenting:

- ◇ **Assessing Tree Damage and Mortality:** Michael Jones, UCCE Forestry Advisor for Sonoma, Lake, and Mendocino Counties
- ◇ **Erosion Concerns and Treatments:** Rich Casale, NRCS District Conservationist, Santa Cruz County
- ◇ **Understanding Wildlife Concerns:** Carolyn Whitesell, UCCE Human-Wildlife Interactions Advisor, San Mateo and SF Counties
- ◇ **Managing Fire-Adapted Weeds:** Stephanie Larsen, UCCE Range Management Advisor, Sonoma County
- ◇ **Taking the Long-Range View:** Members of the Forest Working Group

Attendees will learn tips for evaluating common post-fire concerns on their land, hear about local resources for funding and technical assistance, and have the opportunity to ask questions to speakers during Q&A.

This event will be held via Zoom. Instructions for joining will be provided to registrants.

The event will be recorded and available to view afterwards on [SonomaForests.org](https://www.SonomaForests.org)
