Cc: Gail L Harris <glharris@ucanr.edu>, Lea Jane Eddy <ljeddy@ucanr.edu>

At the meeting yesterday we talked about the plant clinic, volunteers can do the plant clinic in the office or virtually. If you will be doing the plant clinic virtually from home contact Lea Eddy at ljeddy@ucanr.edu and Gail Harris glharris@ucanr.edu or call the office 865-1107. Let them know you will be doing the clinic virtually and let them know how to contact you with an email and phone #.

To access the Master Gardener email account, do a google search for 365 UC Davis, you should see a link that says Sign In - UC Davis or UCDavis uconnect ADFS. Click on the link and you should see the sign in page.

The username is anrmgglenn@ou.ad3.ucdavis.edu

Password: Master Gardener\$ 987654321 There is blank space after the word Master and another blank space after \$.

Once you are successful signing in, I recommend saving the link with the username and password. It will save lots of time.

Don't forget to capture the information about the call on the plant clinic form. The form is filed in VMS or you can get some blank forms at the office.

Gail and Lea do you have anything to add?

We can reevaluate this process in a few months to see how it is working.

Nancy
