

Selected Plant and Soil Laboratories in Northern and Central California

Available online: ucanr.edu/LabList

2022

Analyses performed include: plant and soil nutrients, manure and compost, plant pathology, nematology, irrigation water testing, hazardous wastes and pesticide residue. Laboratories were identified by performing internet searches for diagnostic testing related to crop production.

Laboratories provided in this listing are for informational purposes only and do not constitute endorsement or recommendation by University of California Cooperative Extension.
