

UC DAVIS ARBORETUM ALL STARS DATABASE

Find the descriptions of the Arboretum All Stars

All Stars brochure: [AllStarsBook 201415 final-reduced.pdf \(ucdavis.edu\)](#)

The horticultural staff of the UC Davis Arboretum have identified 100 tough, reliable plants that have been tested in the Arboretum, are easy to grow, don't need a lot of water, have few problems with pests or diseases, and have outstanding qualities in the garden. Many of them are California native plants and support native birds and insects. Most All-Star plants can be successfully planted and grown throughout California.

Learn about Arboretum All-Stars

- Use the [All-Stars database](#) to find the right plants for your garden
- Download the [All-Stars brochure](#).
- Use the [All-Stars planting plan](#) from the landscape outside the west fence of the Arboretum Teaching Nursery as an inspiration for your home garden

For every All-Star, there's a description:

Perennial, Groundcover, Vine, Shrub, Tree

-and-

- Arboretum Location
- Sunset Zone
- Size (Sm, Med, Large)
- Bloom Season
- Exposure ,,..... (5 variations of sun exposure)
- Pruning Needs
- Water Needs..... Depth & frequency
- Watering Instructions
