

UCCE Master Gardeners of Amador County - January 2022 - April 2022

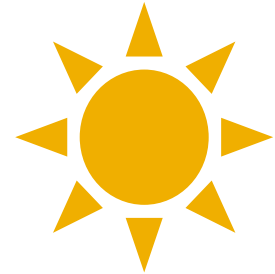

Public Education Classes

Firewise and Waterwise Gardening

March 4, 2023

9:00 AM – 12:00 noon

Location: General Services Administration
12200B Airport Rd
Jackson, CA

NOTE: Class size is limited to 55 attendees due to room capacity.

Firewise

While no one wants to lose a home to wildfire, many residents wonder exactly what they have to do to create a fire safe landscape. Creating defensible space does not mean razing every living thing within 100 feet of your home and it doesn't have to be expensive.

Objectives:

- Learn what is defensible space
- What are the landscape zones
- Appropriate vegetation and home hardening approaches for Foothill residents

Firewise community programming will be reviewed.

Waterwise

Planning your landscaping and gardens for summer dry conditions will put you ahead of the game for drought and water restrictions.

Objectives:

- Review water conservation
- Learn approaches to waterwise irrigation,
- What are drought tolerant and appropriate plants
- Helpful ways to conserve water without killing your garden
