

USDA SCRI Planning Team's Novel Weed Management in Perennial Crops Survey

Survey description:

Thank you for participating in our USDA SCRI Planning Team's Novel Weed Management in Perennial Crops Survey. We are a group of specialty crop weed scientists across the US trying to find out the needs and barriers to adopting novel weed control technologies. Our focus is on perennial crops, so we need your help!

This survey is confidential- your identity will not be linked to your responses. All questions are optional. It takes about 10-15 minutes to complete it. We appreciate your time and support in our research effort.
