**Blackberry and Blueberry Field Tour  
Wednesday, May 18**

Kearney Agricultural Research and Extension Center  
9240 So. Riverbend Ave, Parlier, CA

The Blackberry/Blueberry Field Tour of Tulare County will include visits to both small and large grower fields and packinghouses. The topics will include discussions on field establishment, soil and water acidification, irrigation, harvest practices, postharvest handling practices and a visit to view a blackberry pruning demonstration. If you have any questions call Mary at (559) 684-3302.

**Annual Blueberry Meeting and Field Day  
Thursday, May 19**

Kearney Agricultural Research and Extension Center  
9240 So. Riverbend Ave, Parlier, CA

The blueberry meeting and field day will include presentations on the latest research findings on blueberry nutrition, blueberry disease management, blueberry pest management, blueberry postharvest research and other topics. The speakers will include scientists from several blueberry growing regions in the United States and the University of California. As always, the public will be invited to visit with blueberry industry vendors and enjoy a tasting of a multitude of blueberry varieties.
