

IMPLEMENTING BIOMASS UTILIZATION PROJECTS IN SISKIYOU COUNTY

**A WORKSHOP PRESENTED BY
THE SISKIYOU BIOMASS UTILIZATION GROUP**

October 21, 2010

9:00am – 5:00pm

Siskiyou Biomass Utilization Group (SBUG)

Our Mission

The Siskiyou Biomass Utilization Group is dedicated to maximizing the biomass utilization opportunities in Siskiyou County, California.

Non Profit Sponsor:

The Northern California Resource Center (NCRC) is a private, non-profit mutual benefit corporation (501 c 3) founded in October 1999 and is located in Scott Valley, Siskiyou County, California.

NCRC's mission is to help people.

By embracing and maximizing the collaborative process, NCRC helps people by educating, training, assisting and employing them in the field of natural resources, consequently empowering them to make a difference in watershed health and restoration.

Dedicated to Everyone in Siskiyou County

Meetings are held on the last Tuesday of each month
at 2:00pm, Yreka Community Center

The SBUG is dedicated to working collaboratively with the stakeholders in Siskiyou County to identify the opportunities and challenges surrounding biomass utilization. The group is inviting any interested people to attend and participate.

SBUG Attendees & Participants

We want you to join us

- Campbell Timberland Management
- City of Yreka
- College of the Siskiyous
- Fawaz Farming
- Fire Safe Council of Siskiyou County
- Fruit Growers Supply Co.
- Karuk Tribe
- Klamath National Forest
- KS Wild
- Mason, Bruce & Girard
- Oregon Institute of Technology
- Roseburg Forest Products
- Shasta Valley RCD
- SHN Engineering
- Siskiyou County BOS
- Timber Products
- US Fish & Wildlife Service
- And citizens of Siskiyou County

Our Belief

There are successful alternatives

Actively removing excess woody biomass

Thinning stands of trees for beneficial use

Selectively employing prescribed fire

These alternatives have costs

Our Vision

Some can be done profitably

Creating long term, sustainable jobs

Reducing risk of fire

Off setting our dependence on international energy and forest products

IMPLEMENTING BIOMASS UTILIZATION PROJECTS IN SISKIYOU COUNTY

Workshop Objective:

“Bring the audience to a common level of understanding for woody biomass conversion technologies in Siskiyou County”

Workshop Focus:

- Building up basic knowledge on technologies of interest
 - Helping people to understand existing woody utilization infrastructure in the county
- Looking at lessons learned from those who have been in a similar situation
- Identifying future and potential projects
