

UNIVERSITY OF CALIFORNIA COOPERATIVE EXTENSION

Grown in Marin Workshops

IN COOPERATION WITH MARIN AGRICULTURAL LAND TRUST AND MARIN ORGANIC

Don't Let the Pocket Gopher Pick Your Pocket

April 5, 2007, from 9:00 a.m. to 1:00 p.m.

CANVAS RANCH

755 Tomales Road, Two Rock

Next to the Coast Guard Training Center on the road to Tomales

They drive you crazy and reproduce like crazy. Our agricultural zone in Marin and Sonoma counties is the perfect terrain and climate for pocket gophers. Plan on coming to this on-farm workshop to learn about all aspects of gopher life underground, how to find them, how they spread, how to strategize the battle, and how to trap them. There will be a special demonstration of the "Gophenator," and discussions and demonstrations of other popular trapping systems.
