Learn about the benefits of lacto-fermentation as we make old fashioned kosher dills. Kombucha, a fermented tea, is very popular and can be expensive to buy. We can help you get started in making your own cost-effective tea. We will also be using a boiling water canner to can corn relish.

Each class is limited to the first 24 registrants. Register and pay online by October 12, 2016 and bring a printed or digital copy of your confirmation proof-of-payment email to class. Closed-toe shoes are recommended. Loaner aprons are available or bring yours from home. Cancellation Policy: No refunds one week prior to workshop as materials will have been purchased.
