

The University of California Cooperative Extension presents the

Climate Action and Agriculture Symposium

May 30, 2019 • 8:00am-3:30pm

California State University San Marcos
333 S Twin Oaks Valley Rd, San Marcos, CA 92096

Keynote Address:

Daniel Sumner, Ph. D - Director, UC Agricultural Issues Center

Developing relevant policies, programs, strategies and resources to support sustainable agriculture throughout Southern California is contingent on understanding changing climate and its impact to the unique agricultural environments and industry in the region. This symposium is intended to bring together policy makers, government agencies, researchers, educators, consultants and other public and private agricultural service providers. Discussions will be centered on the San Diego County region; however, information shared may be relevant for neighboring counties.

Topics Include:

- State of San Diego Agriculture
- Climate Change and Impacts to Agriculture
- Climate Action Policies and Regulations
- Climate Action Research Needs
- Case Studies
- Available Resources and Support

Register Online.

\$20.00/person

Includes breakfast, lunch, refreshments, handout materials, and parking.

Presenters Include: Eric Larson (Farm Bureau), Mary Matava (Agriculture Solutions, Inc.), Jeanne Merrill (CalCAN), Ramiro Lobo (UCCE), and Laurent Ahiablame (UCCE)
