

## 2022 PLANT SALE INFORMATION SUMMARY

<b>Botanical Name</b> Common Name	<b>Size</b>	<b>Flowers:</b> <b>Color, Season</b>	<b>Light</b> <b>Needs</b>	<b>Water</b> <b>Needs</b>	<b>Misc.</b> <b>Notes</b>
<b>Achillea millefolium</b> Yarrow	Fuchsia: 8-12" tall Light pink: 12-30" tall Yellow: to 36" tall Summer		Full sun	Regular till established; drought tolerant once established	Deer and rabbit resistant Attracts bees and butterflies
<b>Agapanthus spp.</b> Lily of the Nile	1-3' tall and wide	Blue, purple, white Late spring to frost	Full sun to part shade; prefers afternoon shade in Fresno	Regular till established; drought tolerant once established	Attracts bees, butterflies, and hummingbirds Deer and rabbit resistant
<b>Agastache foeniculum</b> Anise Hyssop	2-4' tall 1 ½ -2' wide	Lavender to purple; Summer to fall	Full sun to part shade (best in full sun)	Regular till established; drought tolerant once established	Deer resistant Attracts hummingbirds, bees, butterflies Native to mid- western US
<b>Agave Americana 'Marginata' or 'Variegata'</b> Variegated Century Plant	Up to 6' tall Up to 8' wide	Yellow or greenish-yellow One time only; plant dies afterwards	Full sun to part shade	Water when soil dries out	Succulent Drought tolerant Leaves have spines on edges Flower attracts hummingbirds
<b>Ajania pacifica</b> Silver and Gold Chrysanthemum	12-24" tall 12-36" wide	Yellow summer to fall	Full sun to part shade	Regular water; drought tolerant when established	Heat tolerant
<b>Ajuga reptans</b> Catlin's Giant Ajuga	3-9" tall 6-12" wide	Blue Late spring to summer	Full sun to partial shade	Regular water; tolerates some drought once established	Can be invasive
<b>Ajuga reptans 'Chocolate Chip'</b> Chocolate Chip Bugleweed	2-4" tall 6-9" wide	Blue Late spring to summer	Full sun to partial shade	Regular water; tolerates some drought once established	Can be invasive
<b>Ajuga reptans 'Variegata'</b> Variegated Bugleweed	6-9" tall 6-12" wide	Blue Late spring to summer	Part sun to shade	Regular water; tolerates some drought once established	Can be invasive
<b>Alternanthera dentata</b> Joseph's Coat	1-3' tall 1-2' wide	Insignificant white Summer	Full sun to part shade	Regular water; somewhat drought tolerant once established.	Can be grown indoors Frost tender
<b>Aptenia cordifolia</b> Baby Sun Rose	Up to 24" long	Bright pink Nearly year round	Full sun	Water when soil is dry; drought tolerant once established.	Succulent groundcover
<b>Aptenia cordifolia 'Variegata'</b> Variegated Baby Sun Rose	6' tall 1-2' long	Bright pink Nearly year round	Full sun	Water when soil is dry; drought tolerant once established.	Succulent groundcover
<b>Aquilegia</b> Mixed Columbine	18-30 " tall 10-24" wide	Various, spring to early summer	Part sun to shade	Regular water	Attracts butterflies, birds, hummingbirds Deer and rabbit resistant
<b>Arctotis</b> African Daisy	12-24" tall and wide	Pink with orange centers or pink with white tips Spring to summer	Full sun to part shade	Regular water; drought tolerant when established	Attracts butterflies Deer resistant
<b>Artemisia 'Powis Castle'</b> Powis Castle Wormwood or Silver Sage	To 36" tall and 30" wide	Insignificant, summer to fall	Full sun	Regular water; drought tolerant when established	Deer and rabbit resistant

<b>Artemisia vulgaris variegata</b> Variegated Mugwort	29-47" tall 29-35" wide	Insignificant Summer to fall	Full sun to part shade	Regular water; drought tolerant when established	Deer and rabbit resistant
<b>Bergenia cordifolia</b> Bergenia	12 "tall 8-10" wide	Dark pink, spring	Part to full shade	Regular water; drought tolerant when established	Deer and rabbit resistant
<b>Bidens alba</b> White Bidens aka Beggarticks aka Spanish Needles	1-3' tall 1-3' wide	White Late spring to frost	Full sun to part shade	Regular until established; drought tolerant when established.	Annual Native to southern U.S. Attracts bees and butterflies Reseeds very easily!
<b>Bidens ferulifolia</b> Yellow Bidens aka Apache Beggarticks	1-2' tall 1-3' wide	Yellow Late spring to frost	Full sun to part shade	Regular until established; drought tolerant when established.	Annual Native to southwest U.S. Attracts bees and butterflies May reseed Deer resistant Tolerates clay and sand if well drained
<b>Bletilla striata</b> Chinese Ground Orchid	12-18" tall 6-12" wide	Purplish-pink or white, spring	Part to full shade	Regular water; somewhat drought tolerant when established	
<b>Brunfelsia pauciflora</b> Yesterday, Today, and Tomorrow	3-8' tall 4-6' wide	Fragrant Purple to lavender to white Spring to summer	Part sun to part shade	Regular water	Attracts butterflies Deer resistant Berries are TOXIC!
<b>Buddleia davidii</b> Magenta Butterfly Bush	3-4' tall and wide	Magenta Summer to fall	Full sun	Regular water; drought tolerant when established	Attracts butterflies, bees, hummingbirds Deer resistant
<b>Bulbine frutescens</b> Cape Balsam	1-2' tall 3-4' wide	Yellow or orange Spring to frost	Full to partial sun	Regular water; drought tolerant when established	UCD Arboretum All Star
<b>Caesalpinia Mexicana</b> Mexican Bird of Paradise	10-20' tall 6-12' wide	Yellow or orange and yellow Summer to fall	Full sun	Regular water; drought tolerant when established	
<b>Caladrina spectabilis</b> Pink Purslane	To 15" wide and 4' tall	Bright pink Spring to frost	Full to part sun	Water when soil dries out.	Succulent; fire resistant; tolerates clay; grows under oak trees; drought tolerant.
<b>Calaminta nepeta</b> Calaminta	12-18" tall and wide	Tiny, white Spring to fall	Full sun	Regular water; drought tolerant when established	2021 Perennial Plant Association Plant of the Year Deer resistant Attracts bees and butterflies
<b>Campanula species/cultivar unknown</b> Bellflower	6" tall 12" wide	Purple Spring	Part to full shade	Regular water	
<b>Canna spp.</b> Orange and Yellow Canna Lily	3-6' tall	Orange and yellow Spring to frost	Full sun to part shade; prefers afternoon shade in Fresno	Regular water	
<b>Carex morrowii 'Ice Dance'</b> Ice Dance Japanese Sedge	1-2' tall Spreading mat	Insignificant	Partial shade to partial sun	Regular water	

<b>Centaurea gymnocarpa</b> Pink Dusty Miller	3-4'tall Up to 8' wide	Rosy-lavender Spring through summer	Full sun to partial shade	Regular water; drought tolerant when established	Tolerates clay
<b>Centranthus ruber</b> Valerian aka Jupiter's Beard	24-30" rall Up to 30" wide	Red, pink, or white Spring to frost	Full to part sun	Regular water; drought tolerant when established	Attracts butterflies Clay, deer, and rabbit tolerant
<b>Ceratostigma plumbaginoides</b> Dwarf or Hardy Plumbago	12-18" tall and wide	Deep blue, summer to fall	Partial to full sun	Regular water	UCD Arboretum All Star
<b>Cercis Canadensis</b> Amaerican Redbud aka Eastern Redbud	20-30' tall 25-30' wide	Rosy pink Spring	Full sun to partial shade	Regular water	Native to eastern US Tree Dark leaves turn to yellow in fall Tolerates clay and sandy soil if well drained Attracts butterflies and birds
<b>Cistus hybrid</b> Yellow Leafed Rock Rose	18-36" tall and wide	White Spring to summer	Full sun	Regular water; drought tolerant when established	Attracts bees Deer resistant
<b>Cistus purpurea</b> Orchid Rockrose	4-6' tall and wide	Purplish-pink with red spots Spring to fall	Full sun	Regular water until established; drought tolerant once established.	Tolerates heat, poor soil, drought.
<b>Conoclinium coelestinum</b> Mistflower	1 to 2' tall and wide	Bluish-purple	Partial sun to part shade in moist soil	Regular water	Native to eastern and southeastern U.S.
<b>Convolvulus mauritanicus aka sabatius</b> Bindweed aka Ground Morning Glory	4-6" tall Trailing to 2-4'	Bluish-purple Late spring to fall; may bloom nearly all year in Fresno	Full sun to part shade	Regular water until established; drought tolerant once established.	Suitable for containers and hanging baskets
<b>Coreopsis grandiflora 'Sunkiss'</b> Sunkiss Tickseed	12-14" tall 14-16" wide	Large, yellow with burgundy red centers	Full sun	Regular water	Attracts butterflies and bees
<b>Cornus florida</b> White Flowering Dogwood	20-25' tall 25' wide	White Spring	In Fresno: part sun to partial shade; appreciates afternoon shade	In Fresno: regular water	Native to eastern U.S. Tree Red-orange berries summer to winter Leaves turn red-purple in fall Tolerates clay and sandy soil if well drained Attracts birds and butterflies Deer resistant
<b>Crassula multiclava</b> Fairy Crassula	Up to 12" tall and spreading	Pink and white, late fall to winter	Partial shade to full sun	Water when soil dries out	Succulent
<b>Crassula ovata</b> Jade Plant	Up to 3 feet or more	White to pink flowers, may bloom in winter	Shade to sun	Regular; dry out between watering	Succulent
<b>Cuphea Ignea</b> Orange Firecracker Plant	18 to 24" tall and wide	Red orange nearly year round	Full to part sun	Regular till established; drought tolerant once established	Attracts butterflies, hummingbirds, bees
<b>Cuphea llavea</b> Bat Face Cuphea	1.5 to 2' tall 2 to 3' wide	Red and purple	Full sun to part shade	Regular water	Attracts butterflies and hummingbirds

<b>Cyantosis somaliensis</b> Kitten or Pussy Ears	6-8" high trailing	Fuzzy, purple	Bright indirect light	Water when top inch of soil is dry; allow to dry out between watering	Succulent
<b>Delphinium grandiflorum 'Blue Cheer'</b> Blue Cheer Delphinium	12" tall 10-12" wide	Dark blue Spring	Full sun	Regular water	2020 Flower Winner Annual Cold tolerant Good cut flower
<b>Dianthus caryophyllus 'Can Can Scarlet'</b> CanCan Scarlet Carnation	12-16" tall	Large, 2", double aromatic red Spring to fall	Full sun	Regular water	2003 AAS Flower Winner Attracts bees and butterflies
<b>Dianthus Interspecific Jolt</b> Pink Jolt Dianthus	13-17" tall and wide	Rose pink Spring to fall	Full sun	Regular water	2015 AAS Bedding Plant Winner Attracts bees, butterflies, birds, and hummingbirds
<b>Dianthus Interspecific Supra Pink F1</b> Supra Pink Dianthus	To 12" tall and wide	Pink Spring to fall	Full sun	Regular water	2017 AAS Flower Winner Attracts bees, butterflies, birds, and hummingbirds
<b>Dianthus spp.</b> Raspberry	12-17" tall	Pinkish-white and rose pink Spring to fall	Full sun	Regular water	Attracts bees, butterflies, birds, and hummingbirds
<b>Dichondra argentea 'Silver Falls'</b> Silver Falls Dichondra	6-12" tall To 6' wide	Insignificant	Full sun	Regular till established; drought tolerant once established	Silver foliage Trailing groundcover Heat tolerant
<b>Dicliptera suberecta</b> Hummingbird plant or Uruguayan Firecracker Plant	Up to 2' tall Up to 3' wide	Coral spring to winter	Full sun	Regular till established; drought tolerant once established	Winter dormant
<b>Duranta repens AKA Duranta erecta</b> Golden Dew Drops or Purple/White Duranta	Up to 10' tall and wide	Purple or white Summer to fall	Full sun to part shade	Regular water	Attracts bees, butterflies, and birds Mature plant has thorns
<b>Echinacea 'Cheyenne Spirit'</b> Cheyenne Spirit Coneflower	26-32" tall and wide	Shades of bright red, pink, yellow, orange, purple, white Summer to fall	Full sun	Regular till established; somewhat drought tolerant once established	2013 AAS Flower Winner Attracts butterflies and bees
<b>Epilobium canum AKA Zauschneria</b> California Fuschia	4-18" tall 2-3' wide	Orange red Summer to fall	Full sun	Regular till established; drought tolerant once established	UCD Arboretum All Star CA native Attracts bees, butterflies, and hummingbirds
<b>Eremophila glabra</b> Gold Emu Bush	12 to 36" high, up to 6 to 12' wide	Tubular yellow to yellow-orange fall to spring	Full to part sun	Regular till established; drought tolerant once established	Australian native
<b>Erigeron glacialis</b> Glacier or Wandering Fleabane	4-18" mound	Pink, lavender Summer	Full sun to part shade; prefers afternoon shade in Fresno	Regular till established; drought tolerant once established	CA native Groundcover Attracts bees, butterflies
<b>Erigeron karvinskianus</b> Santa Barbara Daisy or Fleabane	Up to 8" tall and 2' wide	White to pink Spring to fall	Full sun to part shade	Regular till established; drought tolerant once established	UCD Arboretum All Star Attracts butterflies and beneficial insects

<b>Erysimum spp.</b> Yellow Wallflower	12-24" tall and wide	Yellow Spring, summer	Full sun to part shade	Regular till established; somewhat drought tolerant once established	Fragrant flowers Attracts hummingbirds and butterflies Deer resistant
<b>Evolvulus glomeratus</b> <b>'Hawaiian Blue Eyes'</b> Blue Haze aka Hawaiian Blue Eyes	9-18" tall 2-3' spread	Blue Summer to frost	Full sun	Regular water	Flowers close up at night or on cloudy day
<b>Festuca glauca</b> Blue Fescue	9-12" tall 6-9" wide	Insignificant, fades to buff seed head Summer to fall	Full sun to partial shade	Regular till established; drought tolerant once established	Tolerates drought, dry soil, shallow rocky soil
<b>Ficus carciia</b> Common or Edible Fig	10-2-' tall and wide	Green Spring	Full sun to part shade	Regular till established; somewhat drought tolerant once established	Deciduous tree Edible Fruit ripens late summer to fall
<b>Foeniculum vulgare</b> Bronze Fennel	2-4' tall and wide	Yellow Late summer	Full sun	Regular till established; drought tolerant once established	Edible herb: leaves, base, seeds Anise or licorice flavor Attracts butterflies, birds Deer resistant Re-seeds readily
<b>Gaillardia x grandiflora Mesa Yellow</b> Mesa Yellow Blanket Flower	16-18" tall 20-22" wide	Bright yellow Summer	Full sun	Regular till established; drought tolerant once established	2010 AAS Flower Winner Attracts butterflies Drought, wind, rain tolerant
<b>Gaillardia x grandiflora 'Arizona Apricot'</b> Arizona Apricot Blanket Flower	8-10" tall 10--12" wide	Apricot with yellow edges Spring to frost	Full sun	Regular till established; drought tolerant once established	2011 AAS Flower Winner Attracts butterflies and birds
<b>Guara lindheimeri</b> Pink Guara	1-2' tall and wide	Pink Spring to Summer	Full sun	Regular till established; drought tolerant once established	Reseeds easily Attracts bees and butterflies
<b>Guara lindheimeri</b> Sparkle White Guara	1-2' tall and wide	Bright white Spring to summer	Full sun	Regular till established; drought tolerant once established	Reseeds easily Attracts bees and butterflies
<b>Geranium magniflorum</b> Cranesbill	6-10" tall 18-24" wide	Purple Spring, summer	Full sun to partial shade	Regular water; somewhat drought tolerant	Tolerates clay and sand
<b>Globularia trichosantha</b> Blue Globe Daisy	6-8" tall 8-12" wide	Blue Late spring to early summer	Full sun, afternoon shade	Regular till established; drought tolerant once established	Attracts bees
<b>Gomphrena globosa</b> Pink Globe Amaranth	12-24" tall 6-12" wide	Pink Summer to frost	Full sun	Regular till established; drought tolerant once established	Attracts butterflies
<b>Gypsophila muralis 'Gypsy White Improved'</b> Baby's Breath	10-12" tall and wide	White Spring, summer	Full to part sun; prefers afternoon shade in Fresno	Regular water	2018 AAS Flower Winner

<b>Helichrysum petiolare</b> Licorice Plant	8-18" tall 18-36" wide	Insignificant, white	Part sun to full sun	Regular till established; drought tolerant once established	Grown for silvery foliage Deer resistant
<b>Helichrysum thianschanicum</b> Icicles Licorice Plant	12-16" tall Up to 18" wide	Yellow Summer	Full sun to part shade	Regular till established; drought tolerant once established	
<b>Helleborus</b> Mixed Hellebore or Lenten Rose	Up to 2' tall and wide	White, pink, rose, light purple fading to white or green Later winter to spring	Part to full shade	Regular till established; somewhat drought tolerant once established	
<b>Hibiscus syriacus</b> Rose of Sharon	8 to 10' tall and 6 to 9' wide	Single pink or white blooms summer to fall	Full sun to part shade	Regular; somewhat drought tolerant once established	Attracts butterflies and hummingbirds Tolerates clay. Deer resistant.
<b>Huechera sanguinea</b> <b>'Bressingham hybrids'</b> Bressingham Coral Bells	23-29" tall 12-18" wide	????????? Spring to summer	Part sun to full shade	Regular till established; drought tolerant once established	Attracts hummingbirds, and bees Deer and rabbit resistant
<b>Huechera micrantha var. diversifolia</b> <b>'Purple Palace'</b> Purple Palace Coral Bells	12-24" tall and wide	Cream Spring to summer	Part to full shade	Regular till established; drought tolerant once established	Attracts hummingbirds, and bees Deer and rabbit resistant
<b>Hyssop officinalis</b> Hyssop	2-3' tall 12-18" wide	Bluish-purple Spring to fall	Full sun to part shade; prefers afternoon shade in Fresno	Regular till established; drought tolerant once established	Edible Aromatic Medicinal Attracts bees and butterflies Repels cabbage moths and flea beetles Deer resistant
<b>Lochroma cyaneum</b> Violet Tube Flowers	To 10' tall 6' wide	Purple Nearly year round	Light to bright shade	Regular till established; weekly once established	Attracts hummingbirds Deer resistant
<b>Iresine herbstii</b> Bloodleaf Plant or Beefsteak Plant	2-5' tall 1-3' wide	Insignificant Summer	Full sun (afternoon shade) to part shade	Average water	Afternoon shade
<b>Iresine herbstii 'Blazing Lime'</b> Blazing Lime Iresine	2-5' tall, 1-3' wide	Small white in summer	Full sun to part shade	Average water	Afternoon shade
<b>Jacobaea maritima aka Senecio cineraria</b> Dusty Miller or Silver Ragwort	6-18" tall 6-12" wide	Yellow Spring to summer	Full sun to light shade	Regular till established; drought tolerant once established	
<b>Justicia spicigera</b> Mexican Honeysuckle	3 to 5' tall and wide	Orange Late spring to frost	Full sun (afternoon shade) to part shade	Regular till established; drought tolerant once established	Attracts bees and hummingbirds, Heat tolerant
<b>Lagerstroemia indica</b> Crape myrtle	15-20' tall 6-15' wide	Shades of white, pink, red Late spring to fall	Full sun	Regular till established; drought tolerant once established	Deciduous tree Leaves yellow, orange or red in fall Tolerates clay soil
<b>Lantana camara</b> Dallas Red	3-4' tall 4-5' wide	Bright red changing to yellow orange Spring to fall	Full sun to part shade	Regular till established; drought tolerant once established	Attracts bees, butterflies, birds, and hummingbirds. Deer resistant. Toxic to humans and animals!

<b>Lantana camara</b> Gold	2-3' tall Up to 6' wide	Gold Spring to fall	Full sun to part shade	Regular till established; drought tolerant once established	Attracts bees, butterflies, birds, and hummingbirds. Deer resistant. Toxic to humans and animals!
<b>Lantana camara</b> Radiation Lantana	3-4' tall 4-5' wide	Bright red-orange, Nearly year round	Full sun to part shade	Regular till established; drought tolerant once established	Attracts bees, butterflies, birds, and hummingbirds. Deer resistant. Toxic to humans and animals!
<b>Lantana camara</b> Yellow and White Lantana	1-2' tall 2-3' wide	Yellow Nearly year round	Full sun to part shade	Regular till established; drought tolerant once established	Attracts bees, butterflies, birds, and hummingbirds. Deer resistant. Toxic to humans and animals!
<b>Lantana camara 'Samantha'</b> Variegated Lantana	12-15" tall 18-24" wide	Yellow Nearly year round	Full sun to part shade	Regular till established; drought tolerant once established	Attracts bees, butterflies, birds, and hummingbirds. Deer resistant. Toxic to humans and animals!
<b>Lantana montevidensis</b> Trailing White Lantana	1-2' tall 4-6+'wide	White Nearly year round	Full sun to part shade	Regular till established; drought tolerant once established	Attracts bees, butterflies, birds, and hummingbirds. Deer resistant. Toxic to humans and animals!
<b>Lantana montevidensis</b> Trailing Lavender Lantana	8-12" tall 3-6' wide	Lavender Nearly year round	Full sun to part shade	Regular till established; drought tolerant once established	Attracts bees, butterflies, birds, and hummingbirds. Deer resistant. Toxic to humans and animals!
<b>Lavandula angustifolia 'Buena Vista'</b> Buena Vista English Lavendar	18-24" tall 18" wide	Dark and light blue Fragrant Spring and fall	Full sun	Regular till established; drought tolerant once established	Attracts bees, butterflies, hummingbirds Deer and rabbit resistant
<b>Lavandula dentate</b> French Lavender	2-3' tall 2-3' wide	Blue-purple Spring	Full sun	Regular till established; drought tolerant once established	Attracts bees, butterflies Good cut flower
<b>Lavandula x intermedia</b> 'Grosso' French Lavender	2-3' tall and wide	Blue-purple, fragrant Spring to summer	Full sun	Regular till established; drought tolerant once established	Attracts bees, butterflies, beneficial insects
<b>Leucanthemum paludosum</b> Paludosum Daisy or Mini Maguerite or Oxeye Daisy	1-2' tall and wide	White with yellow centers Spring to early summer	Full sun to partial shade	Regular water	Tends to die in heat but reseeds easily
<b>Leucanthemum superbum</b> Shasta Daisy	9-36" tall 18-24" wide	White Late spring to summer	Full sun to part shade	Regular water; drought tolerant for short periods once established	Attracts hummingbirds and bees Deer and rabbit resistant Excellent cut flower

<b>Leucophyllum frutescens</b> Texas Ranger	To 8' tall and wide	Purple-pink Summer	Full sun	Regular till established; drought tolerant once established	UCD Arboretum All Star
<b>Limonium bellidiflorum</b> Matted Sea Lavender	To 12" tall	Lavender Spring to summer	Full sun to part shade	Regular till established; somewhat drought tolerant once established	
<b>Limonium perezii</b> Sea Lavender	2' tall and wide	Purple and white Spring to winter	Partial to full sun	Regular till established; somewhat drought tolerant once established	Attracts butterflies Deer and rabbit resistant' Tolerates clay
<b>Lychnis coronia</b> Rose Campion	24-36" tall 16-24" wide	Magenta, white, pink Spring to summer	Full sun to bright shade	Regular till established; drought tolerant once established	Tolerates clay soil Attracts butterflies and bees
<b>Lysimachia nummularia</b> Creeping Jenny or Moneywort	4-6" tall 12-18" wide	Yellow Spring to summer	Full sun	Regular water	Groundcover Hanging baskets or containers
<b>Lysimachia congestiflora</b> Persian Carpet or Golden Globes Loosestrife	3-6" tall 6-12" tall	Yellow Late spring to summer	Full sun to part shade; prefers afternoon sun in hot Fresno	Regular water	Groundcover Hanging baskets or containers
<b>Malvaviscus arboreus</b> Turk's Cap	2-3' tall and wide	Red late spring to early winter	Full to part shade	Regular till established; somewhat drought tolerant once established	Attracts butterflies, birds, hummingbirds. Somewhat deer resistant
<b>Myosotis sylvatica</b> Forget Me Not	6-12" tall 6-10" wide	Light blue Spring to frost	Partial shade to full sun with afternoon shade	Regular water	Self-seeds readily
<b>Myrtis communis 'Boetica'</b> Twisted Desert Myrtle	9-12' tall and wide	White Spring to summer Purplish-black berries in fall	Full sun to part shade	Regular till established; drought tolerant once established	Aromatic leaves and flowers Heat tolerant
<b>Nemesia spp.</b> Pink Nemesia	8-24" tall and wide	Pink Spring to frost	Full to partial sun	Regular	Grown as annual
<b>Nepeta faassenii</b> Catmint	15-24" tall and to 18" wide	Lavender-blue spring and summer	Full sun to part shade	Low water; drought tolerant once established	UCD Arboretum All Star Attracts bees and butterflies. Deer resistant
<b>Ocimum basilicum 'Magic Mountain'</b> Magic Mountain Basil	24-36" tall 12" wide	Purple Late spring to fall	Full sun to part shade	Regular water	Ornamental as well as culinary herb Attracts bees, butterflies Deer resistant Heat tolerant
<b>Origanum laevigatum 'Hopleys Purple'</b> Hopleys Purple Oregano	18-23" tall and wide	Purple-pink Summer to fall	Full sun	Regular till established; drought tolerant once established	Attracts butterflies and beneficial insects Heat tolerant
<b>Osteospermum ecklonis 'Akila Daisy White F1'</b> White African Daisy	14-16" tall and wide	White with yellow center Summer	Full sun	Regular till established; drought tolerant once established	2014 AAS Bedding Plant Winner

<b>Pelargonium capitatum</b> Attar of Rose Scented Geranium	1-3' tall 1-2' wide	Small, light lavender Spring to fall	Full sun	Regular till established; somewhat drought tolerant once established	Rose scented
<b>Pelargonium capitatum</b> Pink Rose Scented Geranium	12-36" tall and wide	Pink Spring to fall	Full sun	Regular till established; somewhat drought tolerant once established	Rose scented
<b>Pelargonium 'Brocade Fire'</b> Brocade Fire Geranium	12-24" tall and wide	Orange Repeat bloomer	Full sun to part shade	Regular till established; somewhat drought tolerant once established	2016 AAS Flower Winner Bi-color foliage
<b>Pelargonium citrosium</b> Citronella Scented or Mosquito Geranium	24-48" tall 12-18" wide	Light lavender Summer	Full sun to part shade	Regular till established; somewhat drought tolerant once established	Citronella scented
<b>Pelargonium graveolens 'Robers Lemon Rose'</b> Rober's Lemon Rose Scented Geranium	24-36" tall and wide	Pink-purple Repeat bloomer	Full sun to part shade	Regular till established; somewhat drought tolerant once established	Lemon scented
<b>Pelargonium interspecific hybrid</b> Calliope Medium Dark Red Geranium	12-14" tall and wide	Dark red Repeat bloomer	Full sun to part shade	Regular till established; somewhat drought tolerant once established	
<b>Pelargonium peltatum</b> Ivy Geranium	Trailing 12-24" tall 24-26" wide	Various: white, pink, red Repeat bloomer	Full sun to part shade	Regular till established; somewhat drought tolerant once established	
<b>Pelargonium peltatum</b> Burgundy Ivy Geranium	Trailing 12-24" tall 24-26" wide	Dark red Repeat bloomer	Full sun to part shade	Regular till established; somewhat drought tolerant once established	
<b>Pelargonium peltatum</b> Red Ice Ivy Geranium	Trailing 12-24" tall 24-26" wide	Red Repeat bloomer	Full sun to part shade	Regular till established; somewhat drought tolerant once established	
<b>Pelargonium x domesticum Regal</b> Martha Washington Geranium	1-3' tall 1-2' wide	Dark red Repeat bloomer	Full sun to part shade	Regular till established; somewhat drought tolerant once established	
<b>Pelargonium x hortorum</b> Geranium Pinto Premium White to Rose F1	14-16" tall and wide	White to rose pink Spring to frost	Full sun to part shade	Regular till established; somewhat drought tolerant once established	2013 AAS Bedding Plant Winner
<b>Pelargonium x hortorum</b> Coral Zonal Geranium	14-24" tall and wide	Coral Spring to frost	Full sun to part shade	Regular water	

<b>Pelargonium x hortorum 'Mrs. Pollock'</b> Mrs. Pollock Zonal Geranium	12-18" tall and wide	Red-orange Spring to fall	Full to part sun	Regular water	Multi-colored (green, cream, red) foliage Attracts butterflies Heat tolerant
<b>Perovskia atriplicifolia</b> Russian Sage	3-4" tall and wide	Lavender-blue Summer	Full sun	Regular till established; drought tolerant once established	Attracts hummingbirds, bees, butterflies, birds Deer, rabbit, pest resistant Heat tolerant
<b>Petunia x hybrid</b> Spreading Magenta Petunia	7" tall Spreads 24-48"	Magenta Summer	Full sun	Regular water	1995 AAS Flower Winner Heat resistant
<b>Petunia x hybrid</b> Spreading Red Velour Petunia	Spreads 16-22"	Dark red Spring to fall; intermittently year long	Full sun' part sun	Regular water	2015 AAS Flower Winner Annual but may last more than one year
<b>Petunia x hybrid</b> Bees Knees	8-10" tall 16-22" wide	Bright Yellow Spring to frost	Full sun Tolerates light shade	Regular water	2022 AAS Ornamental Winner Annual Heat and rain tolerant Attracts pollinators
<b>Petunia x hybrid</b> Opera Supreme Pink Morn Petunia	4-6" tall up to 36" wide	Pink to white, summer to frost	Full sun	Regular water	2007 AAS Bedding Plant winner
<b>Petunia x atkinsiana</b> Evening Scentsation	5" tall 30-35" wide	Light purple Spring to frost	Full sun	Regular water	2017 AAS Flower Winner Fragrant flowers
<b>Petunia x hybrid</b> Merlin Blue Morn F1 Petunia	15-20" tall 18-30" wide	Blue and white Spring to frost	Full sun	Regular water	2003 AAS Flower winner
<b>Petunia x hybrid</b> Prism Sunshine F1 Petunia	4" tall 10-12" wide	Yellow Spring to frost	Full sun	Regular water	1998 AAS Bedding Plant Winter
<b>Plectranthus australis</b> Creeping Charlie or Swedish Ivy	Spreading to 2-3' wide	Small white spring to summer	Bright indirect light to partial shade	Regular water	Hanging indoor or outdoor
<b>Plumbago auriculata</b> Cape Plumbago	To 5' tall and 6-8' wide	Sky blue spring to fall	Full sun to part shade	Regular water until established; somewhat drought tolerant once established	
<b>Polygonium capitatum</b> Pink Knotweed	3-12" tall 12-18" wide	Pink Spring to fall	Full sun	Regular water until established; somewhat drought tolerant once established	Groundcover; spreads easily
<b>Rose</b> White carpet	Groundcover	White Nearly year long in Fresno	Full sun to part shade	Regular water until established; somewhat drought tolerant once established	Fragrant Deciduous
<b>Rudbeckia fulgida var. 'Goldsturm'</b> Goldsturm Black-eyed Susan	18-24" tall 18-24" wide	Yellow Intermittent whole year	Full sun to part shade	Regular water until established; drought tolerant once established	Good cut flowers Deer and rabbit resistant
<b>Rudbeckia hirta 'Autumn Colors'</b> Autumn Colors Black-eyed Susan	18-24" tall 12-18" wide	Bi-color shades of red, orange, yellow, and brown with brown center Summer to frost	Full sun	Regular water until established; drought tolerant once established	Tolerates clay soil Attracts butterflies Deer resistant

<b>Rudbeckia hirta 'Cherry Brandy'</b> Cherry Brandy Black-eyed Susan	21-24" tall 12-15" wide	Red, maroon Summer to frost	Full sun	Regular water until established; drought tolerant once established	Tolerates clay soil Attracts butterflies Deer resistant
<b>Rudbeckia hirta</b> Gold Black-eyed Susan	12-16" tall 10-12" wide	Gold Summer to frost	Full sun	Regular water until established; drought tolerant once established	Attracts butterflies and hummingbirds Deer and rabbit resistant
<b>Ruellia brittoniana 'Katie Blue'</b> Katie Dwarf Blue Ruellia	6-12" tall 8-12" wide	Blue-purple Spring to fall	Full sun to partial shade	Regular till established; somewhat drought tolerant once established	Attracts butterflies Dwarf
<b>Ruellia brittoniana 'Katie Pink'</b> Katie Pink Dwarf Ruellia	10-12" tall 2' wide	Light pink Spring to fall	Full sun to part shade	Regular till established; somewhat drought tolerant once established	Attracts butterflies and hummingbirds May become invasive
<b>Ruellia elegans</b> Brazilian Petunia or Elegant Ruellia	To 3' tall and wide	Bright red Spring to fall	Full to partial shade	Regular till established; somewhat drought tolerant once established	Attracts hummingbirds
<b>Ruellia squarrosa</b> Water Bluebell	9-12" tall	Purple Summer	Full to partial sun	Regular water; prefers moist but well drained soil	Grows in water up to 6" deep
<b>Salvia argenta</b> Silver Sage	6-12" tall 9-20" wide	White Summer	Full sun	Regular till established; drought tolerant once established	Fuzzy silver leaves Attracts butterflies, hummingbirds, bees Deer and gopher resistant
<b>Salvia 'Phyllis Fancy'</b> Phyllis' Fancy Sage	4-5' tall and wide	Violet Spring to fall	Full sun to bright shade	Regular till established; drought tolerant once established	Attracts butterflies, hummingbirds, bees Deer and gopher resistant
<b>Salvia chamaedryoides</b> Germander Sage	12-18" tall 3-4' wide	Dark blue Spring to fall	Full sun to part shade	Regular till established; drought tolerant once established	Attracts bees, butterflies, and hummingbirds
