

DIVISION OF AGRICULTURAL SCIENCES • UNIVERSITY OF CALIFORNIA

# CALIFORNIA AGRICULTURE

Volume 16

Number 3

MARCH

1962

**New Gamma Ray  
Facility Aids  
Biological Studies**

Page 2

**Better Leaching  
Methods Save Water,  
Cut Drainage**

Page 5

**Soil Aeration Needed  
for Plant Growth**

Page 6

**Plastic Rice Levees  
Economically Feasible**

Page 8

**Urea Formaldehyde:  
Nitrogen Source**

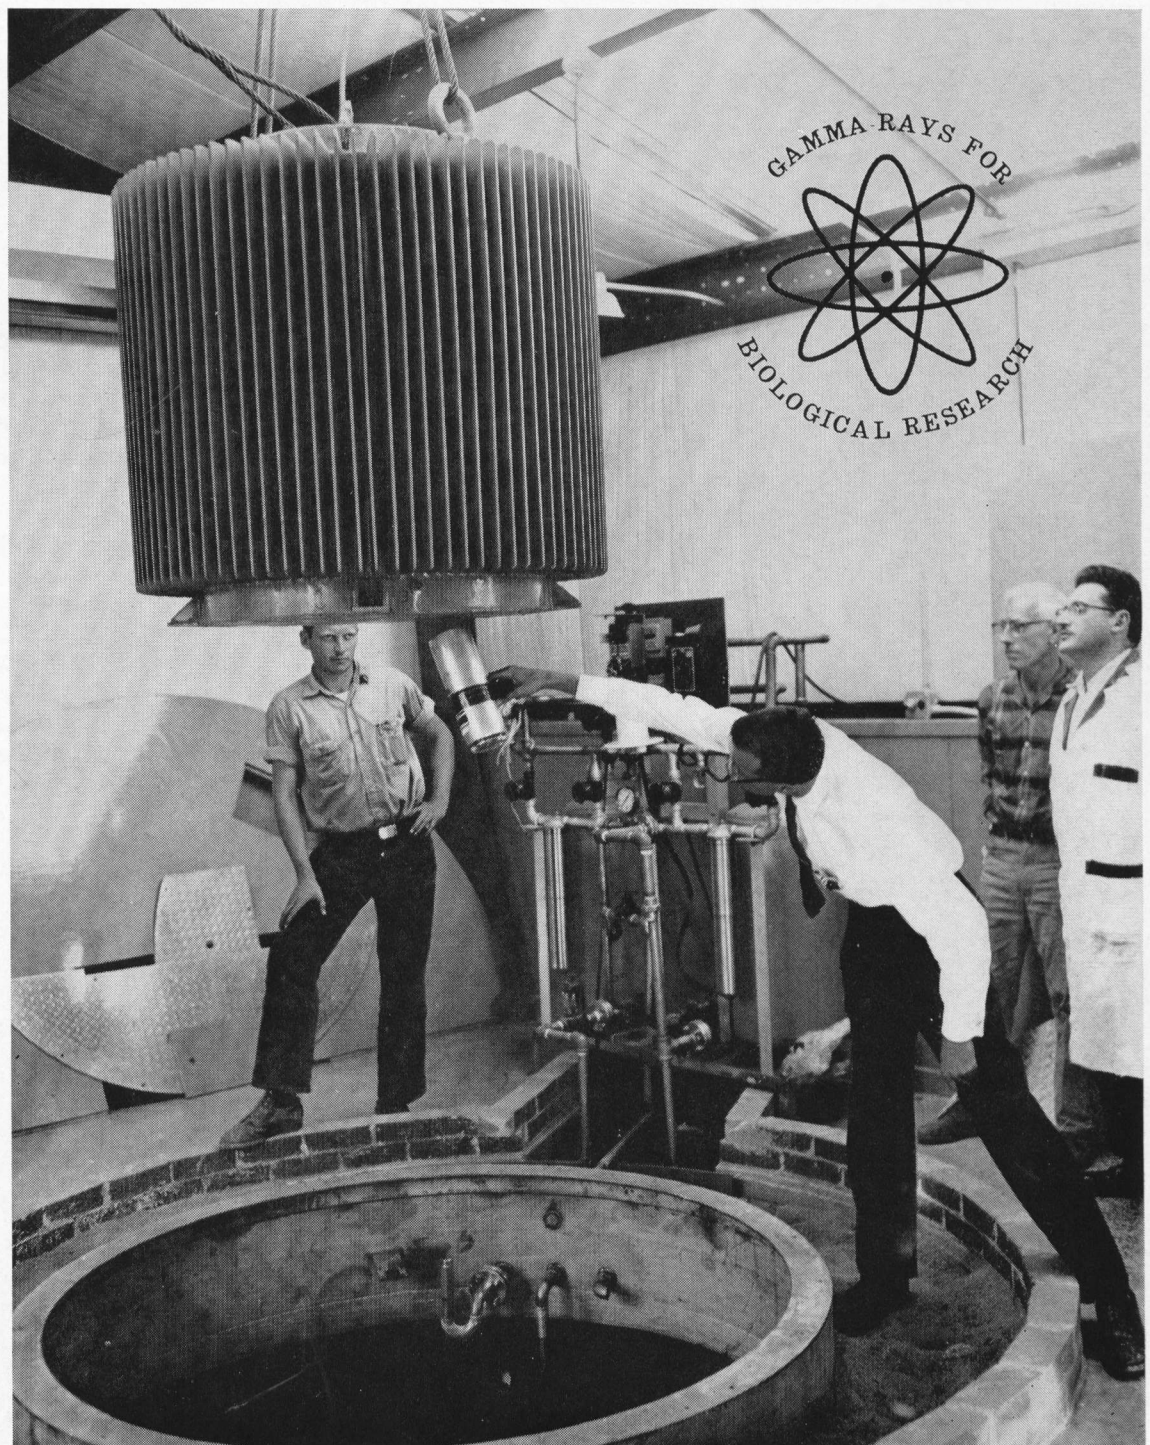

Page 10

**Controlling Water-  
grass in Corn with  
Herbicides**

Page 12

**New Aqueous Resinous  
Soil Stabilizers**

Page 14

**Reports of Progress in Research by the California Agricultural Experiment Station**
