Volume 25

Number 3

MARCH

1971

**Systemic Fungicides  
For Control of  
Some Diseases  
Of Easter Lilies**

Page 4

**Pink Bollworm  
Reduction By Early  
Crop Termination**

Page 6

**Cling Peach Harvest  
Mechanization  
Economics**

Page 8

**Nitrogen Supplements  
For Wintering Beef  
Steers on Low  
Quality Roughages**

Page 10

**Sugar Storage  
Mechanisms in Beets**

Page 12

**Successive Fumigation  
Effects on Strawberry  
Replanting**

Page 14

*Benlate has been found to give excellent control of Botrytis or "fire" of Easter lily foliage in northwest California (see page 4).*
