

How to make an Origami 4-H Clover

Materials Needed:

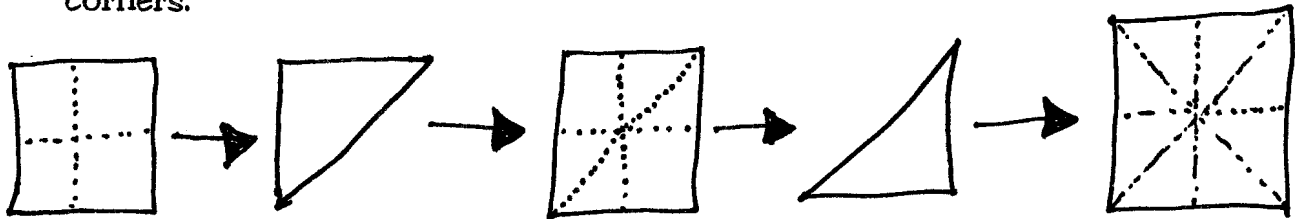

- 1 sheet of origami paper
- marker

Preparation:

Fold origami paper precisely in half, then unfold it and fold the opposite way. These lines will help you while you are making the clover.

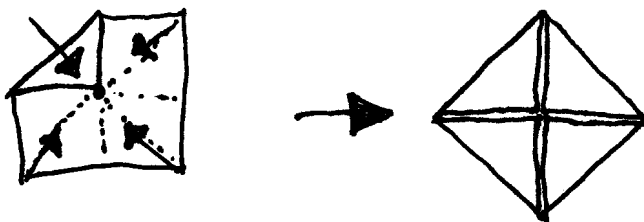

Fold the paper corner to corner, then unfold and fold the opposite corners.

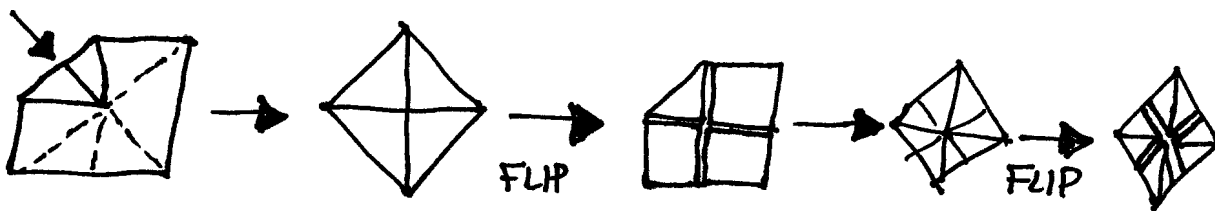

Step 1:

Fold the four corners in the center point very neatly. The edges of the papers should meet on the lines and the corners should meet at the center. Flip the paper over.

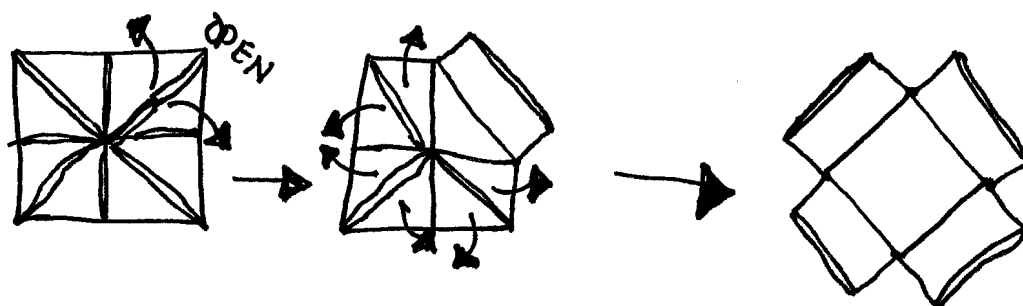

Step 2:

Fold the four corners into the center again. Flip it over, and do the same thing for a third time. Flip it over.

Step 3:

Open the four boxes and push down so that the small boxes stick out from the center square.

Step 4:

Flip it over so you see the side with the solid square. Fold the corners of each box to meet the fold line. Turn it over, and write an "H" on each petal.
