4-H RECORD BOOK INFORMATION

In California, we have two ways to complete a Record Book - through our Online Record Book (ORB) or with a paper Record Book. Both versions are aligned with the same forms and follow the same instructions for completion. You can use either version as your Record Book.

The 4-H program has a long history of record keeping. The focus reflects the importance of this life skill in our daily lives. Completing a 4-H Record Book is a process where you record project and club work using a standard format.

FEMA NATIONAL PARTICIPATION BY TEEN LEADERS—DUE MARCH 31ST!

The National Youth Preparedness Council involves a two-year term for teens. Applications from teens are due March 31, 2019 and involve having reference letters so this will take some time to develop. Here is a description of this Council and information about applying:

The FEMA Youth Preparedness Council was formed in 2012 to bring together youth leaders from across the country who are interested and engaged in advocating for preparedness. The Council is made up of 15 members who are selected based on their dedication to public service, their efforts in making a difference in their communities, and their potential to expand their impact as national advocates for preparedness. During their two-year term, members complete local- and national-level projects and share their opinions and experiences regarding youth disaster preparedness with the leadership of FEMA and other preparedness organizations. Examples of members’ projects have included starting preparedness programs in schools and communities, helping to establish state youth preparedness councils, developing a mobile application for first responders, and hosting disaster preparedness exercises and events. Members also attend the annual Youth Preparedness Council Summit in Washington, D.C. each summer, where they participate in team building activities, learn about project planning, attend media training, and hear from youth preparedness leaders from across the country. Projects have included starting Teen CERT programs, leading mass casualty exercises, and creating preparedness videos for their community. Members have also spoken at conferences, received media attention, and generally helped to elevate the awareness of youth preparedness. It is open to youth in grades 8-9-10-11.
