

WHAT DID WE MISS?

The goal of this study to date has been to understand the experiences of first-year 4-H members and families. Do you think we missed anything? Can you think of questions we should ask or issues we should address to help us better understand their experience? **Write them here!**

Can you think of resources that would be useful to have for 4-H volunteers?

The 4-H Youth Retention Study (YRS) is a multi-state project involving 8 states (CA, FL, ID, LA, MO, NJ, WA and WY). The goal of this research is to retain more youth in the 4-H program nationwide, as well as to recruit more youth to the program annually. This study surveys first-year members and their parents (adults) to better understand their experiences in the 4-H program and their intent to re-enrollment in the program for a second year.
