

**CCRC Fall 2022 Meeting**  
**The Importance of Livestock Pond Restoration**  
**In Central Coast Rangelands -**  
**Maintaining water sources and wildlife habitat in the uplands.**

**Summary Description**--This workshop will provide an overview of the creation of these water features and how they have become essential breeding and rearing aquatic habitat for amphibians, turtles, and invertebrates. We will talk about how livestock grazing is used to reduce herbaceous biomass and maintain the upland landscapes. Participants will learn the steps taken to achieve pond restoration work - including planning, partnership, permitting, implementation, monitoring, and feasibility. You will hear from our panelists about their roles in pond maintenance as a rancher, regulator, and public land manager. In the afternoon we will visit a restored pond along Sunol Ridge in Pleasanton Ridge Regional Park.

**Date**—Tuesday, October 18, 2022 8:30am – 3:40pm

**Venue** — SFPUC Sunol Corp Yard Facilities - 505 Paloma Way, Sunol, CA 94586
