

Sustainable Agricultural Lands Conservation (SLAC)

SALC/AHSC Program workshop

Enterprise Community Partners and the University of California, Cooperative Extension would like to invite you to participate in an educational workshop highlighting two complementary State funding programs geared toward helping communities achieve housing and land-conservation goals – the Affordable Housing and Sustainable Communities (AHSC) program and the Sustainable Agricultural Lands Conservation (SALC) program.

Technical assistance providers from both programs will be on hand to present program guidelines, highlight funded projects, and discuss best practices in advance of upcoming rounds. This workshop aims to improve regional equity efforts, build technical assistance capacity, and grow funding opportunities for the Southern California and San Joaquin Valley regions.

Workshop details:

- When – Monday, March 21, 11:00 a.m. - 12:30 p.m.
- Where – [Zoom registration](#)

If you have any questions in advance of the workshop, please contact Kristine Williams, kwilliams@enterprisecommunity.org
